## Radha's Letter

Dear Friends,

In August, we joined others around the world to commemorate World Humanitarian Day, an opportunity to shine a light on the challenges faced by the more than 65 million who are displaced from their homes by conflict, persecution, or disaster.

One of the toughest hurdles refugees face is the struggle to cook their food safely, as refugee Hibo Ibrahim points out in a story this month, and that they risk assault, injury, and even rape while searching for firewood. To raise awareness and better understand...

The Global Alliance for Clean Cookstoves is a United Nations Foundation-hosted public-private partnership to save lives, improve livelihoods, empower women, and protect the environment by creating a thriving global market for clean and efficient household cooking solutions. The Alliance's goal calls for 100 million households to adopt clean and efficient stoves and fuels by 2020. The Alliance is working with over 1500 public, private, and non-profit partners to accelerate the production, deployment, and use of clean cookstoves and fuels in the developing world.
